

MIOSHA Standards & Compliance

Review for the Plastics Industry

1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA)

2 Why You Need This Seminar . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high costs of work-related injuries. Nationally, employers spent an estimated 50.8 billion on wage payments and medical care for workers hurt on the job. (*Liberty Mutual Safety Index 2005*) This is only a portion of the total costs of work-related injuries. Indirect costs such as overtime, training and lost productivity can also burden employers.
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces workers compensation costs, improves employee morale, and increases production and quality.

3 What You'll Learn . . .

Employers in the plastics industry are faced with daily safety challenges including safety training, guarding of pinch points, die changes, control of hazardous energy sources and many others. This safety workshop is designed to assist employers and employees deal with these daily challenges. The session will include a review of the MIOASHA General Industry Safety Standard Part 62, Plastic Molding, and other applicable MIOASHA safety standards. Also included is a review of the revisions contained in MIOASHA General Industry Safety Part 85, Control of Hazardous Energy Sources, that pertain to this industry.

Agenda

We offer a flexible program agenda to emphasize the safety and health topics you want most.

- ▶ Review of GI Standard Part 62
- ▶ Explanation of Machine Guarding
- ▶ When Lockout Applies
- ▶ Discuss Fall Protection
- ▶ Overview of Material Handling

All meetings are accessible and barrier free. Please contact the cosponsor or CET Division, at least two weeks in advance, to request necessary accommodations.

Facilitator

Bob Carrier was appointed to the MIOSHA Consultation Education and Training Division in 1989 as a consultant specializing in general industry standards in the mid-Michigan area. Bob brings with him his previous experience as the Safety Administrator at Allied Signal Aerospace Company. His experience includes safety program development, safety training and workers' compensation administration. Bob recently chaired the Division Plastics Committee where updated training was developed for the industry.

A graduate of Ferris State University with a B.A. degree in Occupational Safety and Health, and a member of the American Society of Safety Engineers, Bob offers a diversified background in safety training and consultation services.

Robert Carrier
*Occupational Safety Consultant,
MIOSHA, CET Division*
